SUMMARY

Full Stack Developer skilled in React.js, Angular 19, Node.js, and PostgreSQL with hands-on experience building scalable, secure web applications and task management systems. Proven ability to deliver responsive front-end interfaces, robust APIs, and cloud deployments that improve operational efficiency. Strong problem-solving skills and a collaborative mindset focused on clean, maintainable code.

WORK EXPERIENCE

Full Stack Web Development Intern at Ministry of Ayush Apr 2025 - May 2025

- Migrated ministry’s official website to Angular 19 and Bootstrap 5, improving performance and responsiveness.
- Worked within a private repository alongside senior developers, enhancing front-end development skills.
- Ensured accessibility compliance and seamless user experience across devices.

Full Stack Web Development Intern at Airport Authority of India June 2025 - Aug 2025

- Developed “TaskFlow – MultiLevel,” a task management system enabling multi-level nesting of tasks/subtasks for efficient project management.
- Integrated real-time status updates and role-based access control (RBAC) for secure, transparent task collaboration.
- Created interactive dashboards providing actionable project metrics.
- Leveraged PERN stack technologies (PostgreSQL, Express.js, React.js, Node.js) and deployed on Render.

PROJECTS

SafeRoute – Smart Navigation with Safety-Aware Routing [Live](#) [Repo](#)

Developed a **safety-focused navigation web app** using **React**, **Leaflet**, and **Tailwind**, featuring **interactive maps** and **dynamic route plotting**. Implemented a **safety scoring algorithm** using real-world data (e.g., **crime stats**, **lighting**, **traffic**) to suggest **safer travel routes**. Built a **responsive UI** with **real-time heatmap overlays** and **safety insights**; backend powered by **Node.js**, **Express**, and **external APIs**.

EDUCATION

2023 - 2027	B. Tech (IT) at Bharati Vidyapeeth College of Engineering	(GPA: 9.07)
2023	Class 12th CBSE	(90%)

SKILLS

Languages:	TypeScript, JavaScript, HTML, CSS
Databases:	PostgreSQL, MongoDB
Frameworks:	MERN Stack (MongoDB, Express.js, React, Node.js), Next.js, Angular 19, Bootstrap 5
Libraries:	React Leaflet, WebSockets
Tools/Platforms:	Git/GitHub, Cloudinary
